**M Quinn/M McGinnis**, Architect(s)  
Quinn Evans I Architects, Ann Arbor, MI

**Melissa Vernon**, Manager of Sustainable Strategy, LEED  
Accredited Professional, Interface Flooring Systems, GA

# Vision Statement

*Sustainable Issues For Designers, Builders, Architects,  
Educators, Administrators, Students, and Community*

Provide regional educational leadership initiative, as Universities, Colleges, and Educational Institutions, to disseminate knowledge, research findings, and latest developments in sustainable design for environmental designers, builders, developers and students and broader community.

Organize the seminar series utilizing academics and professionals with cutting-edge concepts and technology application. Professional organizations and manufacturers with innovative product development should be encouraged to participate. Exemplar case studies, products and concepts should be presented.

Advance these concepts of sustainability:

### **Socially Sustainable**

Enhance the overall sense of community and our interdependent relationships with all species. Move from destructive behaviors to harmonious existence with the entire earth planet. Demonstrate advanced living and learning techniques for a sustainable planet.

### **Environmentally Sustainable**

Reduce, reuse, recycle, re-think. Initiate restorative practices in connection with the natural environment. Reduce dependence on fossil fuels and non-renewable energy sources.

### **Economically Sustainable**

Reuse existing buildings. Share in community education, ownership and operations. Commit to education as a transformative process. Provide long term commitment.

EASTERN MICHIGAN UNIVERSITY™

## *Regional* SEMINARS ON SUSTAINABILITY *Registration Form*

**March 4, 2005 9 AM to 4 PM**

**Marshall Hall Auditorium**

**Seating is limited. Register early.**  
**Complimentary Admission**
